

# IMPACT FOR CONSTRUCTION

**Impact is easy-to-use, web-based software that helps your company to capture, monitor and report its positive social and environmental impact.**

It captures information and evidence from your staff, transforms it into actual social and environmental impact, and displays your progress towards your Impact goals... all in real time!

Impact is designed to allow easy delegation of data capture across multiple (or even all) staff, so the great work you do is less likely to slip through the gaps. This also means that you can compare your social impact between multiple locations - or easily and coherently consolidate it from across your supply chain.

Not only that, but Impact is easy to integrate with other systems: if you capture environmental data using another tool we can automate this data being inputted into Impact. We can even apply a 'conversion' to this data, to make it more meaningful to you and your stakeholders: by automatically turning 'CO2 saved' into 'cars removed from British roads', for example.

Crucially, Impact makes the creation of your end of year CSR or Annual Report as easy as a few clicks. Graphical reports for any date range enables the visualisation of your social and environmental impact, year-round. Or, if you want to delve into the impact and perform your own analyses, you can also output the data as a spreadsheet.

Impact gives your workforce a single place to log all their activities that contribute to your social impact. You can see the amount of CO2 saved, the number of buildings insulated, the number of local people employed, and the amount of money invested locally, and so on - any initiative you need to track, Impact can capture.

## INTEGRATE

Impact can also interface with other systems, your website, and even readings from devices such as smart meters and solar panels.

## MONITOR

All of the outcomes captured are available at any time in the visual Impact dashboard, so you can better plan future activities.

1		<b>Denton Pryor</b> Professional Services
2		<b>Izzy Beasley</b> Strategy
3		<b>William Emmett</b> Finance

## EVIDENCE

Staff don't need to know the ins-and-outs of social impact: they just log what they're doing, add any evidence (like text or photos), and Impact does the rest.

## REPORT

You can also generate a spreadsheet or visual report of your social impact for any date range with a single click.

## FIND OUT MORE

If you want to get started with Impact contact us via email at [bethan.williams@impactreporting.co.uk](mailto:bethan.williams@impactreporting.co.uk), call us on **0161 660 7949**, or find out more at [www.impactreporting.co.uk](http://www.impactreporting.co.uk).
